Notes to Applicants

1) Please inform us if your name as it appears on your Certificate of Registration/Diploma is different from your current name (i.e. Maiden names, etc). EHOs qualified in Scotland should give the date of the award of their REHIS diploma (or its antecedents).

2) Full time work excludes career or other major breaks from work (of two months or more), including extended sick leave. Part time (or job share) work should be converted to full time equivalent (FTE) by using the formula

$$\frac{X}{5} \times \frac{3}{2} \times \text{Number of months}$$

where X is the number of full days work each week.

10.00 am – 3.00 pm working (or similar) should first be converted to equivalent full time days per week. Provide details of your working arrangements and use of the formula within Section 5 of the application.

E.g. Part time working 9.30 am to 3.00 pm, five days per week for five years:
daily working hours 4 ½ (taking account of lunch hour)
hours per week = 5 x 4 ½ = 22 ½ equivalent to three days full time per week
Insert into formula:
 $\frac{3}{5} \times \frac{3}{2} \times 60$ (months) = 54 months FTE
a further 7 months work (= 6 months FTE) would be required to achieve the five year FTE qualified professional experience

Note: FTE claimed cannot be more than actual months worked.

E.g. if working 4 days per week for 4 years,
FTE = $\frac{4}{5} \times \frac{3}{2} \times 48$ = 55 months
As FTE cannot be more than actual work time, 48 months only can be claimed.

3) Successful applicants will receive a certificate and may call themselves “Chartered Environmental Health Practitioner” and use the CEnvH designatory letters.
