# CIEH Environmental Management Certificate

This qualification is designed to help managers identify and manage the environmental effects of their businesses.

## Who needs this qualification?

Middle managers and supervisors who have responsibility for discussing policies, measures and impacts, decision-making, managing budgets, allocating tasks and meeting specific performance targets.

## Why is this training important?

The need for businesses to address environmental issues has never been greater. Increasing legislation and the changing needs of lenders, investors and insurers are forcing them to focus on environmental performance. Organisations that do this will be more efficient and may get more favourable rates for borrowing and insurance.

## Learning outcomes

- Ability to take corrective action
- Be confident in dealing with environmental issues and customer queries
