# CIEH eLearning – Level 2 Health and Safety in the Workplace

This qualification has been designed to ensure that all employees are aware of their own safety and the safety of customers, contractors and the public.

## Who needs this qualification?

Anyone in a work environment.

## Why is this training important?

While employers are responsible for providing safe and healthy workplace conditions, employees need to understand their own responsibilities and must receive proper training in the basics of health and safety.

## Course learning outcomes

- Understand the principles of health and safety and accident prevention
- Ability to contribute to any health and safety management system
- Understand the importance of risk assessment as a technique for accident and ill health prevention
- Understand the responsibilities placed on employers and employees
- Understand the hazard, risk and main causes of harm to workers (manual handling, hazardous substances, exposure to noise and vibration)
- Understand the importance of following systems, procedures and rules
- Understand how individual action can reduce risks to health and safety
- Appreciate how workplace equipment and task design affect health and safety

**Duration:** six hours.

**Status:** On completion candidates are eligible to take the examination for CIEH and Ofqual accreditation.

## Benefits of CIEH eLearning:

- Reduce overall costs
- Provides consistent delivery of content
- Self-paced learning and on-demand availability provides flexibility for the student
- Increase learner engagement
- Offer training internationally
