

HHSRS Damp, Mould and Excess Cold

Programme Day 1

- 9.30 Introduction and welcome
Outline of programme
Agree learning outcomes
- Key issues around Damp and Mould
Impact on health – current research and thinking
Good practice in scoring and Worked Examples
- 10.25 **Refreshment break**
- 10.35 Damp and Mould causes:
- Ventilation, humidity
 - Thermal insulation & condensation
 - Damp proofing
 - Disrepair & penetrating damp
- 11.20 **Refreshment break**
- 11.30 Key issues around Excess Cold
Impact on health – current research and thinking
Good practice in scoring and Worked Examples and remedial actions
- Excess Cold causes and remedial actions:
- Inadequate heating
 - Inadequate control of heating
 - Thermal insulation
- 12.25 **Refreshment break**
- 12.35 Excess Cold causes continued
- Case study briefing Damp & Mould
Case study briefing Excess Cold
- 13.30 Close of day 1

Programme Day 2

- 9.30 Welcome
 Review of day 1 and progress with learning outcomes

 Exploration and discussion of Damp and Mould case studies
- 10.25 **Refreshment break**
- 10.35 Damp and Education material
 Remedial works and enforcement options
 Court and Lands tribunal decisions
- 11.20 **Refreshment break**
- 11.30 Exploration and discussion of Excess Cold case studies
- 12.25 **Refreshment break**
- 12.35 Excess Cold remedial work and enforcement options
 Court and Lands tribunal decisions

 Learning review and close
- 13.30 Close of day 2
